

DATA ART

Kinzie and her friends tracked the number of kind deeds they did for three days. Can you decode the data in their art trackers?

KEY

DAY 1

DAY 2

DAY 3

ANALYZE THE DATA

Does **Kinzie's** tracker or **Will's** tracker have more spaces to track acts of kindness? Which would you want? Why?

Whose tracker is completely filled?

What trend in the number of acts of kindness do you notice for Days 1 and 2 for **Dai** and **Elijah**? Did they both do more on Day 1 or Day 2?

Did **Skylar** or **Emilia** complete more kind deeds on Day 2? Who did more on Day 3?

How many total kind deeds do the kids need to do for all the trackers to be complete?

ANSWERS

ANSWERS on p. 31

Emilia

Dai

Skylar

Kinzie

Elijah

Will

MY TRACKER ART!

-  **Write one habit, task, or goal on each pencil in the diagram below.** This can be something you want to do each day (like make your bed or drink plenty of water) or something you want to avoid (like biting your nails or having too much screentime).
-  **Color in a section of the rainbow tracker each day** you accomplish your tasks.
-  **Track for 6 days** and see how colorful your tracker becomes! (Use any colors you love!)
